Subject: Arkema Trailers

Carl and Mary,

I just heard from the On-Scene Coordinator at the Arkema site that the local authorities are considering igniting the trailers. They would plan to use the local explosive experts to conduct the operation. This decision is imminent. If the locals decide to ignite the trailers, we have 2 OSC at the site along with contractor support to conduct ground air monitoring. In addition, we have ASPECT in the area to conduct over flights of the facility during the event.

Thanks

Ronnie
